COKE MERGER PLANS COMPLETE; FORMATION OF BIG COKE COMPANY.

May Be Called the Consolidated Connellville Coke Company, But This Name Will Be Acted On by Operators.

FINANCIAL PLANS OUTLINED

A Sinking Fund of 17 Cents Per Ton Will Be Established To Take Care of Indebtedness—Good Profits Are Sure To Be Realized.

The Consolidated Connellville Coke Company will be ready to begin business October 1st as a corporation, and on or before December 1st as a coke operator. The plan of the coke merger has been submitted to the operators. The foregoing has been suggested as a name and may be adopted, though this has not been finally determined. The capitalization of the company will consist of preferred and common stocks and 6 per cent. bonds. For the payment of the bonds a sinking fund of 17 cents per ton of coke manufactured will be set aside, and 5 cents per ton will be set aside in a sinking fund for the redemption of the preferred stock. The latter will pay 5 per cent. dividends regularly, and it is estimated that the common stock will pay from 8 1/2 to 12 per cent. The securities of the corporation will be listed on the New York and Pittsburgh exchanges and will be readily convertible into cash. The stock under ordinary conditions will be worth par and is confidently expected to command a handsome premium as the earning powers of the corporation become apparent.

Charles McKnight, the representative of the underwriters, under date of July 23, sent out a supplementary agreement and a circular letter to the operators, and John W. Bollean, the field manager of the merger is here this week conferring with the operators and getting their signatures to this final paper.

The supplementary agreement provides that the purchaser and associates, immediately after October 1, will organize a Pennsylvania corporation for the manufacture and sale of coke which shall take title to all the properties taken over. A holding company for the manufacture and sale of coke stock also will be organized, which will issue preferred and common stock sufficient, with the stock and bonds available, to complete payment for the property.

The purchaser shall have the right to deal with an underwriting syndicate for the sale of the bonds and to use common stock to assist in the sale of the bonds as required, which shall be part of the issue. The vendor will have the right to purchase any amount of the bond issue with the same stock bonus as is given by the underwriters. The preferred stock is to be redeemed out of a sinking fund of 5 cents on a ton of coke.

The company taking the title to the properties will issue 5 per cent. free of tax gold bonds, of which up to \$15,000,000 may remain in the treasury as against an equal amount of bonds of sundry coke companies outstanding, to be exchanged as opportunity presents. All the remaining bonds shall be sold and the proceeds turned over to the vendors in part payment, less expenses of sale, etc., except \$5,000,000 cash, which shall be placed in the treasury of the company for a working capital, cost of incorporation, etc. Any other bonds not so used may be paid to the vendors on account.

This shall not prevent having in the treasury unissued bonds, which may be taken out later in the purchase of new properties, extensions and new developments. Bonds shall be redeemed by a sinking fund provision of 17 cents a ton.

It is intended to put the stock and bonds of the new corporation on the New York and Pittsburgh stock exchange, the promoters believing the securities on their merits will command a price with only very ordinary business conditions and above par under fairly good conditions. The plan according to the present program, will be operated through an organization made up of the best of the present operators in the region, which takes in Fayette, Greene and Westmoreland counties, and, as insuring the value of the stock, the holders of stock will have the sole right to determine by their votes the character of the management.

Concerning the value of the merger stock, Mr. McKnight's letter says: "As to the value of the stock offered as a part payment, careful estimates of earnings have satisfied the underwriters and bankers interested that, at the average selling price of coke for the past eight years, the preferred stock will yield 6 per cent. dividends and the common stock about 9 1/2 per cent. The effect of the merger should add enough to the selling price of coke in fairly good times to make the dividends about 12 per cent on the common stock. At prices well below the average of the past eight years, the common stock will earn 6 1/2 per cent."

LARGEST INDIVIDUAL SUIT ENTERED IN COURT

James B. Thompson Wants to Recover \$250,000 From the Monongahela Railroad.

UNIONTOWN, July 27.—The largest individual damage suit ever entered in the Fayette county courts was filed this morning by Attorney H. D. Leonard, one of the youngest attorneys at the bar. It was an action on the part of James B. Thompson of Luzerne township against the Monongahela railroad company in which the plaintiff asks \$250,000 damages.

The suit is in the nature of an appeal from the decision of viewers who awarded Mr. Thompson \$1,800 damages for the right of way for the railroad across his farm. The road is about a mile long over the Thompson farm.

Mr. Thompson states in his claim that the unusually large amount is asked because of a valuable deposit of limestone on his place which cannot be mined on account of the railroad going through.

BOY'S LEG BROKEN.

Walter Whitmore Falls From Apple Tree In Parents' Yard.

Walter Whitmore, the nine year old son of Mr. and Mrs. Victor Whitmore, sustained a broken leg yesterday while picking apples from a tree in the yard.

The lad climbed too far up and the limb gave way, throwing the lad to the ground. Dr. M. B. Shue was summoned and dressed the lad's injuries.

SUIT FOR \$5,000.

J. B. Shlery Wants That Amount from Bowman Brothers.

UNIONTOWN, July 27.—J. B. Shlery has entered suit for \$5,000 damages against the Bowman brothers, who operate a brick plant in Lower Tyrone township.

Shlery claims the defendants have mined silica, clay and other minerals from off his land.

Plea for Business Men to Start the Old Humbert Plant.

"Why don't the business men of Connellville, the Merchants' Association or the Chamber of Commerce, get busy and get the Humbert tin plate mill started now when they could do so, and probably never again," said a prominent man of town today.

Humbert mill he said would never be started as a union mill, and it was now up to the business people of the town to make an effort to have the mill placed in operation.

"There is one good argument in favor of starting the mill and that is that many of the old employees would be glad to hear of the wheels turning. Practically all of them are now working in other mills and those who have the 'open shop' sign up. South Connellville is their home place and many still own properties there, and they would be glad to come back again."

Not long since one of the old work-

men of the plant was visiting friends in Connellville. In talking about old Humbert and the good days that he worked there he exclaimed: "It certainly was a pity that work ever ceased there. It was a happy family until that old union bugbear bitted in, and what have we had since. We are working now in a non-union capacity, and we were for months and months without work. South Connellville promised to be a great seat of industry, and the workmen, or a few at least, blasted the hopes of many who expected to settle down their life in the hope of their days. It is not only the hope of myself but of many others that some day the business men of Connellville will wake up to the possibilities that the Humbert plant affords and instead of talking new industries endeavor to start those that are no more."

A BATTLE WITH SNAKES.

OHIOPILE, July 27.—Jefferson Flowers and Miss Ella Morrison of Sugar Loaf, while out for a stroll Sunday, had the experience of running into a den of rattlesnakes. They gathered up clubs and stones and attacked the reptiles. The couple stood their ground well, and did not give up the fight until all the snakes had been killed. There were seven and all over three feet in length. Each of the seven showed up ten rattles and a button. This is the largest number of snakes killed in the community at one time for several years.

Miss Morrison and Mrs. Flowers attempted to carry them home but were unable to do so. They procured the rattles and journeyed homeward. It was thought a joke until the rattles from each snake was shown.

CHIEF ROTTLE ON THE WARPATH.

Says Assaults Must Cease and Warns Officers to Be Watchful.

ARRESTS LIKELY TO FOLLOW

Chief Says Strikers or Sympathizers Who Cause Trouble on the Streets Will Be Dealt With Severely—Innocent Man Attacked.

Although the police have learned nothing of the matter it is reported that Joseph Seifon, a produce merchant of Uniontown, was set upon by sympathizers with the Baltimore & Ohio strikers last night and badly beaten. He was mistaken, it is alleged, for a strikebreaker, and before he could explain the matter he was badly used up.

Chief of Police Rottler stated this morning that such outrages must cease and whether strikers or not, somebody is going to suffer.

It is said that the rank and file of the strikers are orderly fellows who have taken no part in the few disorders which have occurred. There are a few of the strikers, however, who possess both quick tempers and pugnacious spirits, and it is keeping the other fellows busy to keep them out of mischief.

Captain Moran of the Baltimore & Ohio police force has made several fruitless appeals to Burgess Evans for special officers to preserve order. With the exception of two or three street brawls, there has been no trouble and Burgess Evans declined to increase the police force and add to the cost of maintaining this department when there was no necessity for such action.

Failing to secure additional officers from Burgess Evans, Captain Moran appealed to Sheriff Jones, who detailed Deputy Jesse Berg to look over the situation. Berg was here two days looking for the riots that were taking place and returned to Uniontown in disgust. The only trouble Berg saw the whole time he was here was a mixup between some guards and the strikebreakers.

Chief of Police Rottler has instructed his men to keep a watchful eye out for any disturbances and arrests will follow. This alleged assault of an innocent party caused the Chief's ire to rise today.

"Those fellows have got to learn to behave themselves," he said. "I am not taking sides in this matter at all. The police force is able to cope with the situation and we are going to arrest the first man who starts anything, whether he is a striker or a strikebreaker. We will not stand for these assaults."

The strike has been on many weeks now and it is said that the more they strike are eager to start something. The strikers deny that any of the assaults have been committed by their men as the ones who would be apt to start a fight are being closely watched by cooler heads.

"We realize that there is nothing to gain and much to lose through any acts of violence that might be committed," said a striker this morning. "We are using every effort to prevent any trouble on the part of our men."

BURGESS AT SOMERSET.

Early Session of Court Held So He Could Get Away.

An early session of police court was held this morning to enable Burgess J. L. Evans to catch a train for Somerset, where he will witness the review of the Second Brigade by Governor Edwin S. Stuart.

But one prisoner was in for sentence. He was charged with being drunk and was permitted to go.

GOT OUT ALL THE COAL POSSIBLE.

That Is What Experts Testified in Naomi Coal Suit This Morning.

MINED ABOUT 85 PER CENT

Got Over 60 Per Cent. First Time and Went Back to Land Remaining Fifteen—Balance Is Lost, Is the Claim Advanced.

UNIONTOWN, July 27.—Two more witnesses took the stand this morning in the suit of the Naomi Coal Company to restrain Mrs. Elizabeth Moore from cancelling the lease held by the company for the property. E. L. Morris, for two years superintendent of the mine and later an inspector in that district, was the principal witness today.

"If that is true, why is the company going back into the old workings for coal?" was asked.

"In stating that 85 per cent. of the coal could be mined I referred to what had been recovered and what was recoverable," said Morris.

Mr. Morris stated that to the best of his belief the remaining 15 per cent. after the 85 per cent. had been removed, was lost and could not be mined.

The second witness was James Henderson of Elizabeth. Mr. Henderson is an expert mining man. His testimony was purely technical and was questioned as to the methods of mining that obtained at Naomi. Mr. Henderson was of opinion that the Naomi company followed the approved methods and used the only practicable means to get out all the coal possible.

JERSEY HAS A MYSTERY; BEAUTIFUL GIRL GONE

She and Man Registered at Burlington, Quarrelled and Then Disappeared.

United Press Telegram.

BURLINGTON, N. J., July 27.—Scores of men today are dragging rose ponds, in Pine Swamp, near here, in hopes of finding the body of a beautiful woman who mysteriously disappeared from the Metropolitan Inn at Burlington last Thursday night. Some time ago a beautiful girl arrived here with a handsomely dressed man. They registered as "Mrs. and Mr. Watkins."

Quarrels between them were frequent. Thursday, after a quarrel the man paid his bill and disappeared. Later the woman in great distress ordered a rig, drove away, and has not been seen since. Searchers found the rig tied to a tree and there were signs of a struggle. Footprints of a man and woman were to be seen. Side combs, hair pins, woman's clothing and a bottle of whiskey were found.

Earliest arrivals on the spot say there were signs of a body being dragged to the river.

VAST PROFIT SHARING SCHEME IS APPROVED

Non Union Employees of Youngstown Sheet and Tube Company to Benefit.

STOCKHOLDERS OF THE YOUNGSTOWN SHEET AND TUBE COMPANY TODAY APPROVED ONE OF THE LARGEST PROFIT SHARING SCHEMES EVER KNOWN IN THE IRON AND STEEL BUSINESS.

It is reported between two and four hundred thousand dollars will be distributed among the employees each year.

Everyone participates in the distribution from the head of the concern down to the laborer, with the exception of where the union scale is signed. The plan is all open shop with the exception of the puddling department.

RESORT IN FLAMES.

Prout's Neck, Me., Has \$100,000 Fire Today.

PORTLAND, Me., July 27.—(Special.)—Fire, believed of incendiary origin, today caused a loss of \$100,000 at Prout's Neck, a fashionable summer resort near Old Orchard Beach.

Flames started in the Joycelyn House, and driven by a brisk wind, soon spread to the stables and jumped to the summer cottages and to the garage.

Weather Unsettled.

Unsettled weather with showers to night and Wednesday; is the noon weather forecast.

Nights Cool in Mountains.

Campers visiting town during their stay in the mountains say that the nights are extremely cool.

NOW CORNERSTONE.

BERLIN, July 27.—Some time during last night thieves pried the corner stone loose at Bays Reformed Church, about two miles south of town and robbed the box of its contents. The theft was discovered the next morning by some persons passing along the road and the members of the congregation were notified. Only a small sum of money was placed in the corner stone when it was laid a number of years ago and this the thieves took with them.

It is believed that the theft was committed by tramps who finding that there was no one in the neighborhood and supposing that there was a large sum of money and other valuable articles in it pried it out of the foundation. The members of the congregation are indignant over the depredation.

BILL SMINK WAS ARRESTED TODAY.

He Is Alleged to Have Slugged Paul McDonald Last Night.

WAS CALLED BAD NAMES

That Is His Defense For Taking Crack at Local Electrician—Appears Before Squire Miller, Waives Hearing and Gives Bail For Court.

Umpire Bill Smink was arrested by Officer P. M. Rull this morning on a charge of assault and battery preferred against him by Paul McDonald, manager of the Howard Electric Company. Mr. Smink immediately appeared before Justice of the Peace Frank Miller, waived a hearing and gave bail for his appearance at September court. The bond required was \$300, A. A. Straub of the local baseball association going his security.

The arrest followed a row on the street shortly after 11 o'clock last evening. Smink says that he and Barney Gilligan had just left the Wyman hotel and started for the Smith House when a shrill voice pierced the night air.

"There goes the ————" it said, according to Smink.

Both men turned and walked back to where Paul McDonald was standing in the dark. McDonald stuck his hand toward his hip pocket and Smink was stampeded for an instant. The big umpire edged closer to his smaller opponent and before McDonald knew what happened he had been floored by a blow in the face.

Smink says he recognized McDonald's voice as one which had been unusually loud in the bleachers yesterday. He paid no attention to the rally until McDonald, he says, called him an ugly name.

McDonald claims the assault was unprovoked.

CONDUCTORS PLANS OUTING.

Pittsburg District Men Will Spend a Day at Olympia Park.

The Order of Railroad Conductors of the Pittsburg district is planning the greatest outing ever held at Olympia Park on August 19. John W. Ward and J. R. Dinges, two veteran conductors and officials of the O. R. C., were in Connellville yesterday consulting with Superintendent J. W. Brown of the West Penn regarding the affair.

The invitations to be sent out will number 4,000 and the conductors expect to have their friends on hand from as far west as Dennison, O., to Altoona, on the east.

PYTHIAN TEMPLE.

To Be Instituted at West Newton on Friday Afternoon.

Friday afternoon, July 30, a Pythian Temple will be instituted at West Newton with a membership of about 100. Mrs. Martha C. Dunfield will have charge of the work. In the evening the regular routine business will take place after which a social hour will be held. Mrs. S. P. Hildorbrand, Mrs. J. T. Knodo, Mrs. Robert Welsh, and Mrs. Spence of Connellville, Mrs. William McNaughton and Mrs. J. C. Campbell of Mt. Pleasant, will attend the organization.

Weekly Meeting Held.

The weekly meeting of the staff of officials of the West Penn was held this morning. Operating Manager W. E. Moore represented the Pittsburg office.

Meet at Blairsville.

STEEL TIES.

To Be Used by the Thompson-Connellville Coke Company.

In the building of their bank of 400 new ovens, which had been deferred by the business depression of last year, the Thompson-Connellville Coke Company, of which John P. Brennan of Scotland, is president, the Forgythe steel ties are to be used.

This is the first large contract for the use of steel ties it is said to be made in the coke region, large trucks on top of the ovens, heretofore, being held up by iron bridges.

The Forgythe company and the Carnegie Steel Company, both manufacturers of steel ties, and there are several offices of the latter's ties used on the Pennsylvania railroad. Their use on the coke ovens is a new one, and will be watched with great interest.

ESTATE DISTRIBUTED.

Children of Susan Gray Receive Over \$3,000 Each.

UNIONTOWN, July 27.—In Orphans' Court this morning the estate of the late Susan A. Gray was distributed, each of the four children being awarded \$3,823. Judge Work commented on the fact that the executor's charge of five per cent. on the whole estate was the maximum, but must be allowed as no exceptions had been filed.

CHAS. GRAY BADLY HURT IN RUNAWAY

Thrown From Wagon Near Masontown and Suffers Compound Fracture of Leg.

As the result of a runaway at Masontown yesterday afternoon at 5 o'clock Charles Gray of Connellville, manager of the Masontown distillery is at the Cottage State hospital with a compound fracture of the left leg.

Mr. Gray was sitting in the wagon waiting on the driver when the horses took fright and ran off. He was thrown from the wagon before he had time to check the frightened horses. He was thrown with such force that the broken bone protruded through the flesh.

Mr. Gray was placed aboard a street car and brought to the Cottage State hospital where his injuries were attended to. The fracture is a severe one and the patient will likely be confined to his bed for several weeks.

Mr. Gray suffered an accident several years ago while railroading, by which he lost a portion of his right foot. His second injury is regretted by his many friends here.

SERIES OF MISHAPS FOLLOWS CHILD'S PRANK

Dropped a Match Into a Keg of Powder, Badly Burned Itself and Set a House on Fire.

SMITHTON, July 27.—A can of powder, only partially filled with the explosive, let go in a company house of the Pittsburg Coal Company here and burned a foreign child so badly that it lost the sight of one eye. It is believed the child was playing with matches and ignited the powder.

The explosion set fire to the house and while attempting to extinguish the flames Jesse Lancaster fell from the roof and was badly stunned. Drs. Aspey and Hutton of Smithton were summoned and attended the injured.

Poor Telegraph Service Cause for Caustic Comment by Business Men.

Although competition is alleged to exist between the two telegraph companies doing business in Connellville, the service is about as inadequate as it could be to have any at all. Business men in general are complaining about the poor service the town is receiving. Not only are the business hours of the telegraph offices unsatisfactory, but the service is correspondingly poor.

It is a common complaint around town that messages which are received the night before are left undelivered until the next morning while the patron who leaves a message at five minutes before eight o'clock each evening is frowned upon. The office closes at 8 o'clock and after that there is only one way to get any message out of town and that is by telephone.

It is even worse when the incoming messages are considered. If the message doesn't get here by 8 o'clock, no matter how important it is, it stays in the Pittsburg office until morning. Then about 9 o'clock it may finally get it.

This man kicked about the service in general. He also intimated that the business of the telegraph offices is not as confidential as it might be, too. There have been leaks, he claims, which should not be countenanced.

BELL TELEPHONE NO. 66

The Original Closed By the Panic.

There are certain unscrupulous merchants who wish to deceive the public and incidentally take advantage of our advertising. Just one word of caution; remember a merchant who would deceive you openly by imitating this sale. Would you care to take a chance by buying his merchandise? The crowds which attended our sale Saturday surely vouched safe our claim of the greatest bargain givers ever known in this section. We were sorry to have to let hundreds of people go away without being waited upon, but we could not help it. The entire force of sales people did their best, going all day without their meals to satisfy the buying throngs which crowded our store all day.

BIG SALE NOW GOING ON, 220 N. PITTSBURG ST.

\$1.00 WILL DO THE WORK OF \$3.00

It has come, but we could not help it. We are in debt, but we are honest. We must sacrifice our stock to save our good name. The creditors must and will have their money, and this appeal is to every man, woman and child in this country. No sale of such gigantic proportions has ever before been held in this vicinity and will be sold by the Chicago Adjustment Co., a corporation of Chicago, Ill. The stock has been placed in their hands for 8 days to raise the necessary amount to reimburse the creditors.

It will pay you to come 100 miles to visit this sale. The backward season and the shops closed-down and the extreme tightness of money in general, is the cause of this great slaughter. \$35,000 worth of High-Grade Clothing, Hats, Caps, Furnishing Goods and Ready-to-Wear Apparel must be sold for what they will bring in eight days. Clothing at less than cost during this sale.

PLANS AND POSSIBILITIES
OF THE COKE MERGER.The latest developments in the
Connellsville coke merger indicate quite
clearly that it has passed the doubtful
point and that there will be a practical
unification of the business of
manufacturing Connellsville coke for
the market. Eliminating the interests
which are tied up in the settlement
of estates, the independent Connellsville
coking operations outside of the
consolidation will be insignificant.The capitalization of the company
will be above rather than below the
original estimates. Its securities will
consist of preferred and common
stock and bonds, and a peculiar fea-
ture of them is that the common stock
gives promise of being the most pro-
fitable. Sinking funds are provided
for the retirement of the bonds and
the preferred stock, and there is every
reason to believe that they will both
be eliminated earlier than anticipated
in the present calculations. In which
even the common stock will represent
the entire ownership of the property
and will yield fine returns. Aside from
this, however, it is expected that the
common will pay handsome dividends
immediately and continuously.We are no good reason why it should
not. The merger will be in a position to
support the market and prevent unpro-
fitable prices in periods of depression.
We have always held to the view that
Connellsville coke has no business
selling at less than \$2 per ton, no mat-
ter how dull the iron and steel trades
may become, and we still hold to this
view; yet what is the situation today?
With the iron and steel trades virtu-
ally booming and prices advancing,
cokes remains under \$2 per ton simply
because the operators lack organiza-
tion. Were they now united, the price
would be anywhere from \$2.50 to \$3.00
per ton, where it will doubtless jump
when the merger is completed and be-
gins doing business.The supplementary agreement con-
tains a clause requiring the operators
to keep out of the coke business in
Payette, Greene and Washington coun-
ties for a period of years. This re-
quirement, or something similar, was
in the original options, but was be-
lieved eliminated from the second
supplementary agreement. It is evi-
dently now reinstated, not so much
because the merger managers fear
competition in coke-making, but be-
cause of a desire to retain within the
merger all the best talent and wisest
experience possible to be had.
It is one thing to buy the plants and
another to operate them.THE NAOMI MINE CASE
AND ITS LESSONS.The Naomi mining case will probab-
ly set a standard of mining in the
Pittsburgh coal region, and in that re-
spect will be a valuable deliverance.
It is alleged on the one hand that the
lessees of the mine are mining the
coal in a careless, negligent and
unworkmanlike manner, at variance
with economical modern mining prac-
tices; and on the other hand, this al-
legation is positively denied. A cloud
of expert testimony along this line
will be introduced. There can be no
great dispute about the facts, since
they are readily ascertainable from
the data required by law to be kept
and from the observations of the wit-
nesses.The question, therefore, resolves
itself into this: What are the duties
of the lessee of coal property concern-
ing the proper removal of the coal?
It will be conceded that the primi-
tive methods of mining in the Con-
nellsville region, which in many in-
stances consisted in "hogging" the pit,
are not permissible on the part
of present day operators working on a
royalty, but just how far in the di-
rection of modern equipment and op-
eration the lessee is reasonably re-
quired to go must perhaps be judged
by circumstances; for example, un-
less especially understood, the lessee
should not equitably be required to re-
place an old equipment with a new one
any more than a tenant should be re-
quired to rebuild the house he rents.
The Naomi case illustrates the im-
portance of drawing mining leases
carefully.The assault on an innocent Union-
town man has not helped the cause of
the B. & O. strikers, and the cause
would not have been helped any more
if the victim had been a strike-breaker.
The public does not approve of lawless
strikes.The National Conservation Commis-
sion estimates that the waste in coal
mining is fully 60 per cent. If this
is the rule of mining, the complainant
in the Naomi suit has no case.Give people a pleasant word if you

CORRESPONDENCE.WASHINGTON, July 27.—Supposing
the Payne-Aldrich tariff bill is agreed
to by both Houses and signed by the
President, when does it actually be-
come effective—on and after the min-
ute the President affixes to it his sig-
nature, or when notice of that fact is
given to both Houses of Congress?That query appears, on its face, to
be of small consequence in the long
run, but, as a matter of fact, there is
likely to be considerable litigation
over it before the answer is finally
given. One way or another, the reply
is bound to mean at least thousands
of dollars in or out of the pockets of
the importers.The new tariff bill, as it will prob-
ably be signed by President Taft, de-
clares "That on and after the day
following the passage of this act . . .
there shall be levied, collected . . .
etc." The Dingley law provided "That
on and after the passage of this act . . .After the President had signed the
Dingley law the question arose, "ex-
actly when did the law go into effect?"
It was a query of vital importance to
many importers; big shipments of
goods might have arrived a few min-
utes after the law was signed, the du-
ties on which were increased by the
new law. A shipment might escape
application of the higher duties by 15
minutes.The question was not settled until
after endless litigation and the bring-
ing of one case to the Supreme Court
of the United States, which held that
the Dingley Act became a law at six
minutes after four o'clock on July 24,
1897—which was the exact time the
President signed it.

Just now there is a prospect that

the same litigation may follow the
signing of the Payne-Aldrich bill by
the President. In the House bill, the
language of the Dingley law that the
measure should be effective on its pas-
sage, was used, in the Senate it was
changed to "the day following its pas-
sage." If the conferees agree to the
House wording, some official will be
sure to be on hand to note the exact
minute President Taft signs his name
to the bill; and if the language of the
Senate is agreed upon, there is the
possibility that there will be a legal
fight to determine whether the "day
following" means just 24 hours from
the signing of the bill, or what.Already importers are hurrying car-
goes of goods from abroad to this
country to escape increases in the
duties. Importers of wines and liquors
are scurrying now, to accumulate
stocks in this country before the high-
er rates of the new law become ef-
fective.The passage of a new tariff meas-
ure means the hardest kind of work
for the customs officials of the Treas-
ury Department. It means a re-adjust-
ment of every condition; new admin-
istrative problems to be worked out,
every employee must have the new
rates at his finger tips and new regu-
lations must be devised. There will
be no vacations among the customs
employees during August. They will
all be too busy.Meanwhile the lawyers who special-
ize in customs cases are laying to in
the offing ready for a harvest of busi-
ness. They are of the small minority
who hail the advent of a new tariff
measure with joy. It means money to
them.hundred A No. 1 mechanics needed

WEATHER FORECAST.

Western Penna.—Showers today and
Wednesday, light to moderate south
winds.REASONABLE
BARGAINS.Bargain season now and we ask
you to judge of the bargains we
have here to offer you. Goods
that you are needing now but we
want to sell them. Want all the
room possible for the new fall
goods that will soon be here. Want
to get rid of these summer goods
and have made prices that should
be an inducement to you to buy
now. Ask you to be the judge of
these bargains and decide for
yourself whether or not they are
reasonable bargains. Worth buy-
ing because of the quality as well
as the price.

Wash Goods 10c the Yard.

Lawn and dimities and ba-
tistes that sold for 15c the yard
go on the 10c counter this week.
As pretty an assortment of ma-
terials and patterns and colors
as ever we had to show at
this time of the year.

Muslin Gowns at \$1.

A table of these gowns out to
show this week. Worth at least
a half more. Made of best qual-
ity muslin. Neatly trimmed with
embroidery. Full and wide, not
skimped in any way, altogether
the best gown bargain we have
had to show for some time.

White Skirts at \$1.

Made of best quality muslin,
good and wide dust ruffle of cam-
bric and trimmed with three rows
of tucking and hemstitched ruf-
fle at the bottom. On the dollar
bargain table and enough for all
week's selling.

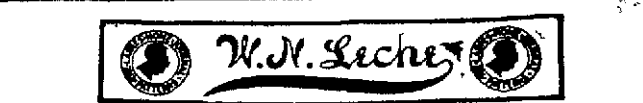

The 50c Bargain Table.

Children's dresses, ladies and
misses' gowns, corset covers and
ladies drawers. Some of all these
on the 50c table this week and at
this price quality considered we
don't believe you'll find better val-
ues anywhere. Care not where
you go.Children's White Dresses
at Half Price.Some of these in the windows
last week, others slightly mussed
in showing and for these reasons
we have offered them at just half
of the original prices. Sizes 2
to 5 years, and prices were from
\$2 to \$5.

White Waists at \$1.

Another lot of these white waists
on the table this week at this
price. Every size from 34 to 42
and every waist worth from one
half more to twice this price of
\$1.00.Children's Colored Dresses
at 1/3 Off.Sizes 4 to 10 years. Dresses
that sold for from \$2 to \$6 and
\$8. All these reduced 2/3 in price.
You'll find these shown on a table
in the cloak room and we call
special attention to the materials
and styles shown.

Suits at Bargain Prices.

Still a few suits left that we
want to get rid of. Maybe your
size is here in color and material
that you'd like. If it is you can
buy it for a price that you'll con-
sider more than reasonable. You
will be surprised at what \$10 to
\$15 will buy in this suit depart-
ment just now. A whole lot more
for your money than you'd ex-
pect. Come and see if this is not
the case. But don't put off the

DECISIONS ARE EXPECTED SOON

In the Cases of Mt. Pleasant Bankers Who Appealed Cases.

THE COURT IS WATCHED

To Determine Whether New Trials Are to Be Given Those Who Were Convicted and Sentenced—Hissom Is Still Very Ill.

MT. PLEASANT, July 27.—Decisions by the United States Court of Appeals in the cases of C. E. Mullin, former cashier of the Farmers & Merchants Bank of this place, and E. S. Steinhilber, convicted with him of misapplying funds belonging to the bank and sentenced to serve five years each in the Western Penitentiary, are expected shortly by the officers of the Pittsburgh Federal court.

Both men were sentenced on January 16, last, by Judge James Young of the United States District Court, after an extended and hard fought trial. H. K. Hissom, the aged and feeble president of the bank, which closed its doors because of their manipulations, was convicted at the same time as an accomplice in the misapplication of \$40,000, but sentence was not imposed in his case, because of the ill health of the defendant. Mullin and Steinhilber appealed their cases immediately and were released on bonds of \$10,000 each. Hissom being under similar bail. Judge Young has announced that he will make no final disposition of Hissom's case until the appeal of the other two is decided. They say that their conviction was irregular and ask the higher court to set the verdict of the jury aside. The court will not sit again until October, but as the cases have already been argued, the judges may hand down their decision at any time.

SCOTSDALE PEOPLE LEAVE FOR LONG RUN

A. L. Keister Will Give His New Car a Trying Out—Party Leaves For Camp.

SCOTSDALE, July 27.—A. L. Keister, President of the First National Bank, in his new 50-horse power Packard machine, left here today for an extended trip of two weeks. He was accompanied by Charles H. Loucks, the cashier of the First National bank of Scottdale, and Dr. G. W. New, corner of Connelville. The machine was in charge of Mr. Keister's chauffeur, John Forster, and he expected to reach Cambridge Springs tomorrow. From there they leave for Erie tomorrow, thence to Buffalo, Syracuse, Albany and New York.

Party Goes Camping: A large party of Scottdale people left yesterday for the Scottdale Dunes, along an Indian creek. Among those in the party were Mr. and Mrs. S. A. Lowe, and daughters, Margery and Zella; Mr. and Mrs. C. Lee Mollinger, Mrs. Robert Skomp, Leo Skomp, Frank Forter, Charles Jewell, Fred Collins, Roy Elcher, Misses Levis and Floss Sherman, James Sherman, Miss Mary Lou Herbert, all of Scottdale, and the Messrs. Zimmerman of Connelville. They have a cook along and expect to be gone two weeks. A number of Scottdale people who had been enjoying camp life for a couple of weeks returned to Scottdale, but several remained over.

Methodist Episcopal Picnic: The Sunday school of the First Methodist Episcopal Church will hold their annual picnic at Shady Grove on Thursday, and expect a very enjoyable time. Special cars will be run on the West Penn line for the crowd, which promises to be a large one.

At Home From Atlantic: John Wanzler of the Everett car shops and John Kaud are home from 10 days spent at New York, Philadelphia and Atlantic City, where they had a very pleasant time.

Test Alarm To Sound: The Scottdale Volunteer Firemen have the fire alarm on the Scottdale furnace repaired so that it is expected to shriek like a wild animal when it sees Roosevelt, and this feature will be proved or otherwise tonight. A test alarm will be blown at 7 o'clock this evening, the plug number to be sounded will be 32 of the Borough building. The firemen desire that this warning be given ahead so that no one will be frightened and think there is a serious fire on, when they hear the whistle.

Flinging Out a Banner: Thomas H. Rutherford, the agent of The Courier, was out playing the brave sailor last Tuesday, putting up an immense banner across the street in front of his news stand, advertising the Merchants' picnic on August 15. Hubbs Nichols did the artistic on the banner, but he stayed on the ground and shouted aloft what fibboom splunkers and hammers to pull and which way to trim the gallant topwall.

Want a Controller: In the Washington, Pa. court a position signed by 2,800 voters was presented asking that a controller be elected for that county.

MARRIAGE IS DECLARED VOID

Harry E. Watt Had a Wife Living When He Married Woman at Cumberland.

UNIONTOWN, July 27.—On recommendation of John Duggan, master in the divorce proceedings of Daisy L. Watt against Harry E. Watt, the court yesterday made an order declaring the marriage of the couple null and void. They were married at Cumberland, Md., August 23, 1905, but it developed that Watt had a wife living at the time from whom he had never been legally separated. Mrs. Watt No. 2 learned this fact and left Watt. Subpoenas and alias subpoenas were returned non est inventa and after the testimony of a number of witnesses had been taken to show that Mrs. Watt had no means of learning of Watt's previous marriage the annulment was recommended. The order was filed with the Prothonotary yesterday.

The court yesterday revoked the appointment of John Duggan, Esq., as master take testimony in the case of Annie Lazarechik against Michael Lazarechik for divorce. It develops that a mistake led to Mr. Duggan's appointment. Another divorce action is pending wherein Mary Lazarechik sues Joseph Lazarechik. This action was returned July 10, but the Lazarechik case became confused with the other through the similarity of names and the appointment of a master, which should not have been made until Saturday, was made on that date. The order of court revoking the appointment of Mr. Duggan names D. E. Bane as master. Mr. Duggan is the master in the Lazarechik case.

A petition for the dismissal of the auditor appointed to adjust the funds arising from the sale by Sheriff of the Fairbank hotel, of which James H. O'Hara and John R. Ramago were the owners, was dismissed yesterday and an order of court confirms the sale. The property brought \$21,000 at the Sheriff's sale, but the former owners contended the price was far too low. The Fayette Title & Trust Company was plaintiff against O'Hara and Ramago.

In the case of Margaret Aldridge against the Baltimore & Ohio railroad, in which a verdict for \$387.75 was returned for the plaintiff under binding instructions, an order was made yesterday sustaining a motion for a new trial, in which it was maintained that the testimony adduced at the hearing did not justify the verdict, nor the binding instructions to the jurors.

J. W. Dawson, Esq., was yesterday appointed master to take testimony in the divorce action of William H. Burkholder against Sarah Burkholder. The respondent has not made an appearance.

In the suit of William S. McClay against Christian, Currie M. and Wade H. Bohard, associated in the McClelland Behari Coke Company, an affidavit of defense was filed on the part of the defendants maintaining they do not owe the plaintiff \$551.27, but admit they do owe him \$100, having paid \$50 on the contract price of plaintiff's services. The claim is for work done in the laying out and construction of a coke works and the defendants claim McClay has not completed his part of the contract.

MEXICAN HOTELS.

They Close Early, and Guests Out Late Must Tip the Porter.

"I'm glad to be back in the land of the litchkey," said a mining engineer who had been in Mexico for the past year. "In France, Spain, Italy and throughout Latin America there is a servant in every house and hotel whose business it is to open the door. In Mexico you would think being so near this country, that the American litchkey would be common. But even in the finest hotels in the capital the big doors are closed at 11 o'clock, and to gain admittance after that hour you have to pound on them with the great knockers that hang outside. After five minutes you hear a sleepy grunt within, then some mutterings and the Spanish word which means 'I'm coming.' Finally the small door in the center of the big one will be unbarred, and you step inside. Then if you don't want to sleep in the park this night you are kept out like you give the portero, as the keeper of the gate is called, a piece of silver. Between 11 and midnight the fee is 10 cents. From 1 o'clock until morning the gratuity, regulated by custom, steadily increases. Between 1 and 3 it is from 25 to 40 cents, and after 3 it is half a dollar.

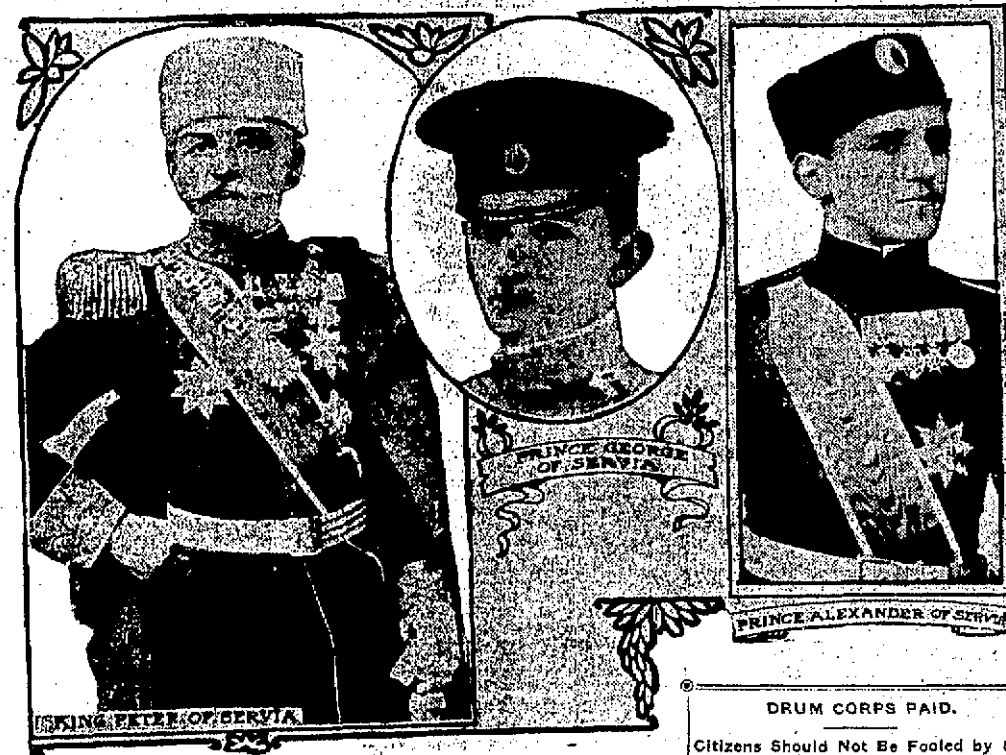

"Many a night I have been awakened by the pounding of the knockers in the neighborhood of my hotel. I timed one man for ten minutes before I fell asleep. Probably he had neglected to see the portero or else the keeper of the gate was drunk, as he frequently is. These porteros usually sleep curled up in blankets just inside the door on the stones with which every interior courtyard and entrance is paved, and all of them have colds. Yet it is a position much sought after, and the catkeeper makes highest among the servants."—New York Press.

The Honeymoon. The honeymoon has no definite duration, but is longer or shorter according as the temper of the high contracting parties determines, or their relatives, or the weather, or the mode or the comparative cost of traveling and staying at home. Briefly, it is that interval during which the man, going out in the morning, remembers his kisses and forgets his overhauls as distinguished from the interval during which he remembers his overhauls and forgets his kisses.—New York Life.

SERBIAN KING, WHO IS AT DEATH'S DOOR, CROWN PRINCE AND MADCAP BROTHER

BELGRADE, Serbia, July 27.—It is believed that King Peter of Serbia is at the point of death. Months ago his physicians discovered symptoms of calcification of the arteries, and this was soon followed by a swelling of the veins. Naturally this led to sleeplessness and the necessity of opiates, which made rapid inroads upon the vitality of the man who had led a life of luxury and dissipation. Peter Karaageorgievich waded in blood to his throne if over a modern ruler did. It

was his adherents who plotted and executed the terrible tragedy in the palace in 1903 when King Alexander and Queen Draga were murdered in cold blood. From the day of his ascension his throne trembled under him, and he wore as many a crown as ever a monarch did. Little Serbia has been torn by internal strife, political intrigue and threats of war for years. Nothing short of a threatened uprising of the people promised Prince George to renounce his title as heir apparent and flee the country after his madcap career culminated in the accusation of having murdered his valet. Prince Alexander, his brother, who is now 21 years of age, is not much more popular than George. Indeed, when King Peter talked of abdication some months ago it was believed that there would be a revolt against the entire Karaageorgievich dynasty and that a Prince of some other line would be called to the throne.

What Is Happening in Company D At Somerset During Encampment.

By William C. Bishop.

The water supply was cut off Monday, but another supply which is only good for cleaning has been secured. One of the old time double action pumps was in use and it has been found that it will not do the work. C. H. Russell, of Boys, Porter & Company, was sent here to repair it. He advised throwing out the old pump and installing a Young steam pump.

The hospital corps is drifting every day, no one being in the hospital. The corps will go on the long hike on Friday. The band escapes this part of the work. Captain Harry Dunn and Lieutenant Roy E. Koffer have been doing double time in getting Company D into perfect shape.

It will continue sold at night. It was always hard for the majority of D boys to get up at 5 in the morning, but these cold foggy mornings makes it a terrific job.

Doc Buttermore is chairman of the Blue Ribbon Buds. There are 12 members. Edgar Wilkey waited upon 50 extra people on Sunday. He is joining Tuesday. Bud Stanton the cook is wishing Tuesday was over with, although both of the men are glad to see Connelville folks.

Some one stole Company D's fresh meat, sugar and prunes, and the Monday evening meal was a short one. There would have been no end of trouble about the camp if the right party could have been found. Turkey Morris or the South Side Savages are not blamed this time.

EQUITABLE HEAD, WHO ENTERTAINS ARMY OF AGENTS.

NEW YORK, July 27.—Paul Morton, president of the Equitable Life Assurance Society, is entertaining hundreds of agents and officials of that organization from all over the world in celebration of the fiftieth year of the company. Today the visitors went to West Point on a specially chartered boat, and tomorrow after their business session they will be entertained at the Lawyers' Club. On Wednesday night they will attend a banquet at the Waldorf-Astoria hotel. On his re-

turn from Europe Mr. Morton announced that 700 of the company's representatives would attend the meeting.

MAN AND MONKEY.

Difference Between the Human and Animal Method of Thought. The difference between the animal and the human idea of what constitutes "knowing" comes out nicely in a piece of work done at Clark university—A. J. Kinnaman's study of chesnut monkeys. The Bandar-log of the "Jungle Book."

The monkey, following the usual procedure, learned to get his food from a box, the lid of which fastened with a key. The key, however, could not be withdrawn from the lock. After the monkey had become familiar with the device and could operate it as readily as a man could do the experimenter took the key out of the lock and laid it on the floor in front of the box. The monkey picked up the key, played with it, but made no attempt to use it. Then the experimenter took up the key, and fifty times in succession, with the monkey two feet away watching every motion, he unlocked the box. The monkey would have started before he imitated that simple act. He had learned to open the box by making certain movements. He had no idea of the key as an instrument in the process. We sometimes think instruments and means and causes. The animal thinks largely by motions.—E. T. Bronston in McClure's Magazine.

DRUM CORPS PAID.

Citizens Should Not Be Fooled by 60-Heiters Going Around. Members of the recent Fourth of July committee have been informed that certain persons have been soliciting money to pay for the boys' drum corps for participating in the parade. To put a stop to this, if such is the case, the above committee members will state that everything has been settled in full according to the arrangements and that nothing is owing to anyone. Although the drum corps was not hired, it made a good appearance in the parade and was awarded a cash prize of \$10, or \$12.50 per member.

OWENSDALE.

OWENSDALE, July 26.—E. L. Stoner, a prominent business man of Scottdale, was transacting business here Monday. Miss Belle Huff of Uniontown, was visiting her parents, Mr. and Mrs. John Huff here Sunday.

Allan Slinchberger was transacting business in Scottdale Monday. Miss Rose Burkes is on the sick list. Miss Elizabeth Morgan of Uniontown, was calling here Sunday.

Mrs. William DeWalt was a guest of her parents, Mr. and Mrs. Saul Miller of Uniontown, over Sunday.

C. C. Boyer, Esq. of Brinkerton, was visiting at the home of Mr. and Mrs. C. C. Provins Sunday.

Lyrene, the young daughter of Mr. and Mrs. Michael DeWalt, is visiting relatives at Bradwood.

Roy G. Farmer was visiting at Little Somerset county, Sunday.

C. C. Provins, store manager of the Reister & Company store at this place, will resign and go into business for himself at Uniontown. His resignation will take effect September 1. Mr. Provins is a practical and efficient business man with many years' experience in the grocery business of which he will pursue. While here Mr. Provins made many friends who regret to see him leave, yet wish him success in his new enterprise.

Mrs. Elizabeth Kennedy, who has been visiting relatives here for the past several weeks has returned to her home at South Greensburg.

DECIDE ON TARIFF PROGRAM.

Conferees Reach a Settlement of Their Differences.

HIDES WILL BE ON FREE LIST

If Cut is Made in Duty on Manufactured Leather Goods—Whole Program Must Be Carried Through or the Plan Will Fail.

Washington, July 27.—Hides will be put on the free list if boots and shoes and other manufactures of leather are reduced below the rates fixed by the house bill. Unless the advocates of free hides are able to carry out this bargain the whole program is to be called off. A decision to this effect was reached by the tariff conferees.

The house members of the conference assembled early today in order that they may lay their plans for executing their part of the agreement. It is expected that they will have a report from the house leaders as to the possibility of passing a rule conferring jurisdiction upon them to agree to lower rates on leather than those named in the house bill.

Senators from cattle-raising states have insisted that the only way consumers can get any benefit from the removal of the protection on hides was by corresponding reductions of the duties on boots and shoes and harnesses.

Hold Trump Card in Reserve.

If, for any reason, anything should occur to upset the plan to give the conferees jurisdiction to adopt rates lower than those named by either the house or the senate the conferees committee is holding what is regarded as a trump card. In the event of a conference report putting hides on the free list and reducing the rates on shoes and other leather manufactures.

The report, it is said, then would be presented to President Taft with the statement that the conferees had not been able to muster sufficient votes to assure its adoption and it would devolve upon the president to procure the necessary support for the program. In the event of failure, according to promoters of this suggestion, the conferees would submit a report placing a small duty on hides and the house rate on leather. The president would be asked to get the necessary votes in the house to insure the passage of such a program by that body.

Objections as such a plan would be to most of the conferees, it is said to have been suggested in all seriousness. Few of the conferees believe that it will be incumbent upon them to resort to such tactics, however, for all of them realize that the criticisms usually heaped upon members who oppose the administrative view make men hesitate to combat the president's will.

PANAMA MUST BEHAVE

State Department's Attention Is Called to Maltreatment of Americans.

Washington, July 27.—Panama's attitude in failing to take proper notice of the maltreatment of American citizens within her borders during the past two years and a half has irritated the United States government to the principle of insisting upon the prompt settlement of these cases to the satisfaction of the state department.

Apparently reliable testimony showing unprovoked assaults and rough treatment of American citizens, including naval officers, during the past two years and a half has been presented to the Panama government with a view to obtaining proper apology, punishment of the offenders, compensation for injury or death and police reforms, but all to no purpose. Only the most unsatisfactory replies have been received from Panama.

TOO LATE NOW

Wickham Says Corporation Tax Bill Cannot Be Recast.

Washington, July 27.—Attorney General Wickham says it is "too late to attempt to recast the corporation tax amendment bill," on the basis of a proposition the bare statement of which "would be received with very great incredulity by most minds."

He so expressed himself in a letter written in reply to one from a number of firms of accountants in New York, who made a new suggestion to him.

SUPPORTS SUTTONS.

Private Kennedy Testifies Before Board of Inquiry.

Annapolis, Md., July 27.—The session of the board of inquiry at the naval academy, which is investigating the circumstances surrounding the death of Lieutenant James N. Sutton, afforded some surprise in the testimony given by Charles W. Kennedy, now a private in the marine corps.

Kennedy dropped into the situation like a bolt from a clear sky and told a frank, straightforward story of some of the incidents prior to the shooting. His testimony supported the contention of Sutton's mother and other relatives that Sutton did not seek the fight with Adams and the other officers. Kennedy said he had been reluctant to mention his part in the affair because Lieutenant Utley and Adams, his superiors, had both admonished him on the morning following the shooting to "keep quiet."

On his way to relieve a sentry he had come upon Sutton, Adams, Osterman and Utley in an angry argument, the witness said. Adams was in his shirt sleeves ready for a fight and Sutton had accented him (Kennedy) and asked him to hold his blouse, cape and cap. "All right, Adams, if you want to fight, I'll fight you," he heard Sutton say, the witness testified. They fought hard for a few minutes and Sutton's face was bloody when Lieutenant Utley interfered and stopped the fight. A second time he saw Adams and Sutton come together as he was going away to his post, Kennedy said.

Half an hour later Kennedy heard the shots from his post and soon after Adams appeared and volunteered the information to Kennedy that Sutton had shot himself. While at early drill on the following morning the witness said he saw Lieutenant Utley go to the edge of the parade grounds and pick up a .38-caliber Colt service revolver which Utley carried into the barracks with him.

FORM A SUICIDE CLUB.

Disheartened Factory Girl First to Die.

Cleveland, July 27.—A club composed of disheartened factory employees, advocating suicide as the only means within their reach of attaining the peace of mind they crave and to escape the torments of their daily grind, is believed to exist here.

This fact was advanced by the parents of Miss Rebecca Bosczech, eighteen years old, who was found dead in Gorham park. After considering all of the known circumstances surrounding her death this is the only theory evolved.

In addition to this the relatives believe another girl, a companion of Miss Bosczech, will end her life within the next few days. The mother of the second girl says she overheard her daughter and Miss Bosczech planning to kill themselves.

According to those who know of the habits of Miss Bosczech, the club consisted of six girls, four young men and a man and his wife. Most of them are employed in clock factories.

After the death of Miss Bosczech became known several young men and women called at the Bosczech home to obtain books and newspaper clippings which the girl had in her room and which she would not let her parents see. The girl is known to have met with these young people at meetings held at various places. They are known to have read morbid literature and discussed death as the only relief for their woes.

Miss Bosczech shot herself. Her body was found in a clump of bushes. It is believed that she was the first chosen by lot in the club to end her life.

SCORES INJURED.

Mexico's Election Causes Greed: Disorder in Several Towns.

Mexico City, July 27.—More than 200 arrests were made, scores or more were injured, including two Americans, and two were killed in political riots in Guadalajara.

The riots started when a mob broke up a meeting in Delgado theater, called in the interests of Porfirio Diaz, the president, and Roman Corral, vice president, for re-election. The orators were stoned in the street cars, carriages and automobiles in which they rode and these were partially wrecked.

Mobs paraded the streets crying, "Down with Diaz." "We want Reyes." In one section a barricade was erected and many shots were exchanged. Six foot and two mounted police were wounded. All the plate glass windows in the downtown section were smashed.

HURTS THEIR BUSINESS

Boxmakers Complain Against the Prohibition Wave.

Tolado, O., July 27.—A resolution declaring against prohibition will be the principal theme of discussion in the national convention of the United Order of Boxmakers and Sawyers.

"If prohibition becomes general we will be driven into other trades because our output is largely beer boxes," said Secretary Curran.

On Way to Redeem His Promise.

Chicago, July 27.—James J. Jeffries last night made this statement: "I am on my way to New York where I will post a forfeit of \$5,000 defending my title to the heavyweight championship of the world. I have finished my theatrical season and, as I promised months ago that I would defend my title when the season was over, I am now going to redeem that promise."

NOISE LIKE PROSPERITY

Whir of Wheels of Industry Heard in Numerous Sections.

Chicago, July 27.—The East Chicago, Indiana plant of the Republic Iron and Steel company, which for eighteen months has been operated intermittently and on a limited scale, will open Aug. 2 after a few weeks of idleness for repairs, with its full quota of men, numbering 1,200. The plant has been running with only from 400 to 600 men.

Plainfield, Conn., July 27.—Work was started on the new cotton weaver shed at Taftville, which will be one of the largest in the world. It will have room for 6,000 looms. The cost of buildings and machinery will be nearly \$500,000. The plant will employ 1,000 hands.

Dunkirk, N. Y., July 27.—An order for thirty locomotives of the consolidation type was placed with the Brooks plant of the American Locomotive company in Dunkirk, by the Missouri Pacific railroad. The engines are for September and October delivery.

Lost in the Woods.

Johnstown, Pa., July 27.—Mr. and Mrs. Wallace Monro of Cleveland, summer visitors at Ebensburg, while picking berries near the latter place became lost in a dense tract of woods.

PAID IN FULL

Novelized From
Eugene Walter's
Great Play

EUGENE WALTER.
Author of "Paid in Full" and "The
Lancet Way"

By
John W. Harding

Copyright, 1908, by G. W. Billing-
ham Co.

That "Paid in Full" is a story of absorbing interest has been proved by its phenomenal success in dramatic form. For two seasons there has been no diminution in the drawing power of this vital piece of realism. In its present form it is not less engrossing. The features which made it so powerful as a play are not less potent in the serial. It is the same keen exposition of human motives put into the simplest forms of expression. There is no waste of material, no attempt to moralize, no break in the continuity. The three men who are the central figures in the story stand out in admirable distinctness from the very first, and the one woman whose splendid rectitude illuminates it all lives from the moment of her appearance. Although it is certain to produce frequent thrills, the story is neither melodramatic nor sensational. Its power lies in its humanness.

CHAPTER I

"No, I'll not give 'em a raise of 3 cents an hour nor of a cent an hour, hark a raine, understand. And I don't want you to come here thinking you can bulldoze me, because you'll find mighty quick you're mistaken. If any man thinks he can do that I want to see him."

The words, uttered in a wrathful bellow, came through the closed door of the president's room and were heard by every employee and visitor in the main office of the Latin-American Steamship company, which occupied an entire floor of a big building in Bowling Green, New York city.

Some of the employees smiled and passed the remark that the boss "had 'em bad" that day, but the smiles were of the slyly, apprehensive order, for the fact that he was in execrable humor was perfectly well known to such and all, having been impressed upon them very forcibly at intervals from the minute the great man had made his appearance with his unruly, grumpy, and clock-struck 9 a. m. Others scowled and kept their reflections to themselves.

The voices of the other parties to the conversation were not audible to the listeners, but that of the president, with its all penetrating roar, burst forth again:

"I don't give a tin whistle what you or your unions do, understand. Let 'em strike; strike and be d—d. But you tell 'em this from me—that any man who's fool enough to throw up his job does so for good and all. He'll never work again for the Latin-American Steamship company in this or any other port. I'll take care of that. I'll show 'em who and what I am if they don't know."

The door opened, and two white faced, intimidated men emerged, cap in hand. They were rough looking men, evidently laborers injured to the hardest kind of work. They shuffled quickly past the neatly dressed clerks and did not breathe freely until they found themselves in the cross streams of hurrying passersby on the street. There, as they mopped their brows and looked around for a saloon, something of the arrogant insolence with which they had demanded audience of the head of the company and which had been speedily cowed out of them by that formidable and choleric personage returned to them.

Meanwhile at the open door of the room in which they had been through the ordeal of their interview Captain Amos Williams, president and general manager of the line, glared after his departing visitors and round the office. There was dead silence, and every employee, from the highest to the office boys, impudent and irresponsible there, as everywhere else, save when Captain Williams was alight, became deeply engrossed in his work.

"Call up Mr. Smith and tell him I want to see him at once," he growled to no one in particular. Then he reentered his room and slammed the door.

In a few minutes, however, his bell rang, and a boy responded to it with an alacrity not customary in any other office in all New York.

"Tell Mr. Brooks to come here," was the order he received.

The boy hurried out and approached one of the men behind the brass lattice screen.

"Mr. Brooks, the captain wants you," he announced.

Mr. Brooks did not reply, but he got down leisurely and with bad grace from his stool and moved with equal deliberation to the president's room.

"Brooks has Fernandez & Co. that Perennibook firm, been heard from yet?" demanded his employer.

"Chuck came today," was the laconic reply.

"Full amount?"

"Yes, four thousand eight hundred and seventy five."

"All right. That's all."

Brooks went out, closing the door

behind him, and returned to his desk. He was in a bad temper himself and made no effort to conceal it, for a sulen scowl marred his handsome and usually genial face. Not only was Joseph Brooks handsome but a rather distinguished looking young fellow, whose clothes sat well and becomingly upon him, albeit they were somewhat shiny from wear and from ironing by inexperienced hands at home. And if his collar and cuffs were just a trifle the worse for wear at least they were immaculately clean.

"Cheer up," admonished one of his fellow clerks, noticing his ill humor. Brooks' moods were never taken seriously, for with him fits of despondency alternated with a contagious cordiality and an optimism that knew no limit. Of late, however, his spells of gloominess had become worryingly frequent, and usually they were accompanied by a nervous irritability.

"Cheer up?" he answered, with some heat. "I don't see any reason for cheering up and I don't feel like cheering up. Did you hear how the broke received those delegates of the Longshoremen's union because they asked him to add a little to their starvation pay to help them keep skin and bone together? Why shouldn't he raise them? Why shouldn't he raise all of us? He's reeking with money, doesn't know what to do with it, yet what does he do but grind us down—grind and grind and grind—grind us as a grain of wheat is ground to powder between the millstones—grind us with his heel, squeezing from us the very sap of brain and life that he may add to his pile?"

The clerks near him had listened to this outburst with amused surprise.

"Well," said the man who had addressed him before, "I haven't noticed

you sweating blood to any extent under the grinding process."

"Jenkins, you're a—d—d camel," retorted Brooks. "For a wisp of hay you'd let yourself be loaded till the last straw broke your back, and then you'd lick the hand that crushed you."

"Sure," said Jenkins enthusiastically. "Anybody can load mumps that wants to."

"And I'll back his liquid capacity to equal that of any camel," chimed in another clerk, while every one within earshot grinned.

"Oh, you can laugh," grumbled Brooks, "but it doesn't alter the truth of what I say. It's men like him that have made our society today what it is, a soulless, heartless, oppressive civilization in which Croesuses walk roughshod over the men who are down and thrust their deeper into the slough with one foot as they climb higher and higher to the power that the possession of inconceivable wealth carries with it."

"I've over this," sighed Jenkins. "But there is yet hope. Our Joseph hath received a call to uplift the down-trodden."

How did he get it? What is his record? went on Brooks ignoring the interruption. "Why, he started out as a sealer or a south Pacific trader which in those days was the same as

being a pirate, and you know and I know that his name was a terror to sailors from San Francisco to Australia. He made his first money by bullying and ill treating other men and killing them, too on occasion. It's a matter of common knowledge. And he's been a buccaneer ever since. Didn't he bunko and swindle his faithful law out of control of this company? And what has he done since then but net the brutal tyrant over everybody connected with it, beating us down to the lowest wage a man can exist on that he may add to his dirty heap running this office with fist boot and rope and as though it were his lawless ship and we were his groveling Lascar crew. I hope the longshoremen do strike! They would be doing humanity a service if they did fill him full of bullets."

"There's a lot of truth in what Brooks says," assented a youthful clerk in low tones, looking around cautiously as he did so.

"Well, after all, I don't see that you've got such a fierce kick coming. Observed Jenkins to the disgruntled orator.

"You don't, eh?" sneered Brooks. "You think \$20 a week is big pay for an accountant and collector who's handled half the money of the line for five years, eh?"

"No, I mean that you are at least solid with the boss and sure of your job, which is more than anybody else here is, and that you stand to become an officer high up in the company one of these days. Williams is a friend of your family, isn't he? You yourself have boasted often that he visits you and your wife."

"That's just it. The swine takes advantage of his relations with my wife's people to keep me down and rub it in. Other people get the salary raised, but I don't. Do you call that a square deal?"

"It hardly seems so, but perhaps there's a reason. He may have some object that will appear in due course, and you'll go up several numbers at one swoop in the meantime," continued Jenkins, lowering his voice. "I wouldn't let on to you have this afternoon if I were you, Joe. It can't do any good and might do you a deal of harm. You don't know who might hear you, and the boss somehow knows everything that goes on in the office."

"I don't care," affirmed Brooks sulkily. "I'd just as lief tell him to his face what I think of him, and by gum, I will one of these days, darn him!"

"All right," laughed Jenkins. "I hope I'll be around at the time so that I can perform for you the last sad rite of a wretchedly up your scattered remains. Ah, here's Jimmy Smith!"

CHAPTER II

JAMES SMITH, superintendent of the Latin-American Steamship company's docks, had arrived in response to the president's summons, conveyed to him by the telephone. Smith, known to his familiars as Jimmy, was a tall, gaunt, angular man, boasting all over him the stamp of westerner. He was, in fact from Colorado, where he began his active career by engaging in mining. Scarcely success attended his efforts in this direction, however, and after working with the dogged determination that was one of his traits until even his patience was exhausted he finally entered the employ of the steamship company in whose service he had risen to his present position, with headquarters in New York.

There was something about Smith that caused men, and women also, for that matter, to take to him on sight. The unbounded good nature, his hearty edness and unselfishness beaming in his blue eyes and in his whimsical smile were written in every line of his clean shaven face. Another thing that made him remarked by all who came in contact with him was his absolute imperturbability. In all his thirty-seven years of existence he never had been known to "get a move on," not even when a premature blast in a mine had sent the diggers better skelter for safety and carried death and suffering to many. Smith had walked tranquilly away amid the rain of rock and earth until it was all over. Then he had returned and organized the work of rescue his placidity causing the others instinctively to look to him for direction. Nor was his speech more hurried than were his movements. He spoke but little, and then his words came in a quiet, even distinct drawl. But he "got there" as quickly as most men and a good deal quicker than some whose nerves were highly strung and with whom rapidity of action was as necessary as breath for he was possessed of keen powers of observation and common sense, an earnestness of purpose that gave his utterances weight and an integrity as unshakable as the rock of Gibraltar. As a fitting almost necessary, complement of such a nature he was endowed with a sense of humor that added not a little to the attraction he exercised for those who knew him sufficiently well to be able to appreciate his qualities of heart and mind.

He took a call, all embracing survey of the office as he entered, looked over to Brooks' desk and saluted him with a cordial motion of the hand and in a moment a boy to notify Captain Williams of his arrival. He was ushered

immediately into the chief's presence. That worthy, who like his superintendent, was clean shaven, was seated at his desk in his shirt sleeves, and the whole room, despite the wide open windows, was thick from the smoke from an old blackened corncob pipe at which he was puffing vigorously. He was a burly man, and the short, thick neck the broad shoulders the powerful, big jointed fingers and the muscles that stood out in bunches on the hairy arms disclosed by his rolled up shirt sleeves denoted that he possessed unusual physical strength. An ugly man to get into an argument with was Williams, one who it seemed no mind reader to judge, would be capable of following the word with a blow that would crush an ordinary opponent. For years, as Brooks had intimated, he had led the roughest life a man can lead, hammering by sheer brute strength a way to wealth by ways in which scruple had counted for nothing at all and expediency for a good deal and his entrance upon a higher plane of civilization had not imparted much polish to his appearance, habits or speech which were those of the old time sailing ship mariner, although of late years he had striven to conform more closely to the examples of polite society he witnessed in the only decent society he came in contact with that of the family of his dear friend Stanley Harris, who was general manager of the Latin-American line when he obtained control of it. He had a way of glaring at a person from under his bushy eyebrows with a scrutiny that seemed to read through and up and down him and made him most ill at ease under it.

He made his decisions promptly and authoritatively after the manner of a man accustomed to command and to be obeyed without question, and he never changed them, at least in his business and administrative dealings. Add to all this a voice like a fathom the effect of which when he raised it, it was, as he knew full well, to make his subordinates quake and to intimidate the society he came in contact with.

"You think \$20 a week is big pay for an accountant and collector who's handled half the money of the line for five years, eh?"

to meet it if I don't give in to his demands on the spot? No, sir, not in a thousand years! I owe this outfit from keel to main peak and if I can't run it my own way I'll scuttle it and go down with it. Understand? And if any man's looking for a fight with me I'll break him, no matter who or what he is. Yes, sir, by Sam, sir, like this!"

Seizing a thick ruler on the desk, he snapped it without apparent effort, and as he sat glaring there with his disheveled hair, his pugnacious, massive features protruding and his big feet tightly clinched on the broken wood, causing the muscles of his arms to bulge like knots on a gnarled tree, he presented the embodiment of might and ferocity.

"I don't know but what you're right, Cap'n Williams," drawled the superintendent with his unchangeable equanimity. "Anyhow, you sure are entitled to do what you like with your own."

He went out and on his way to the office exit stopped at Brooks' desk.

"Well, how's things, boy?" he inquired with an interest so kindly that one might have thought there was something else in the world with which his mind was occupied and never could have suspected that there lay before him for immediate solution the problem of preparing for a great strike that threatened to tie up the business of one of the most important steamship lines in the country, with ramifications extending from Boston all around the coast of South America to San Francisco.

"Oh so, so," answered Brooks. "By the bye, I'd be awful glad if you'd come up to supper tonight. Emma was saying only this morning that we hadn't seen anything of you for a week."

"That's so. I've got to square my self with Emma though it hasn't been my fault altogether."

"Then we'll expect you to supper?"

"I can't promise, because I've a deal to do between now and this evening, but I'll come if I can."

"So long, Jimmy?"

"So long."

And Smith scampered out to attend to one of the greater emergencies he had ever been called upon to meet in his life.

A Rare Opportunity.

When the circus came to Bushy the large attendance was a surprise to Spurre Bernis, and he said so to Will, Ham Hamlin, the postmaster.

"It is natural that men and children should wish to go," remarked the squire in his formal tone. "But I must confess to a feeling of amazement on hearing that the ladies of the town had docketed to see wild beasts and that young woman who leaps from one wire to another, with no regard for her personal safety."

"Tell you just how 'tis, square," said Mr. Hamlin confidentially. "I don't think many of the women folks planned to go till Jed Potter came in here one wall time and told Miss Emma Bolles he understood the show was enough to scare anybody out of ten years' growth."

"Miss Emma's getting on, and you couldn't expect her to let a chance like that go—nor any of the other women, now, could ye?"—Youth's Companion.

Crack! Smash! Bang! Boom!
No, kind reader, the above is not a
description of a sham battle at Som-
erset. It is meant to indicate what
happened to a pair of Coker twirlers
in the park here yesterday afternoon.
It was a terrible slaughter, too, and
talk about, and added to the fusilade
of bingles, the detonations of which re-
sembled a far greater fireworks ex-
hibition than Connelville has ever
seen, was rocky support which wob-
bled and wavered behind the two
twirlers and cut a big figure in the
final outcome.

Our old friend Bill Smink got in
bad right at the start. The crowd
went after him and gave him an awful
roast in every inning. But Bill called
'em, as he saw 'em and
usually had the rules on his
side to bear out the contention. When
he called Randolph out at first after
the speedy Dutchman had beaten the
Francis' throw by a mile, the crowd
boasted, thinking Bill had accidentally
made a decision in favor of the Cok-
ers. As a matter of fact Rudy was
out for not keeping in the base line
and Smink called the play just right.

Smink got the crowd after him for
ejecting Calhoun who was hit on the
hand with a pitched ball and kicked
against not being allowed to reach
first. Kid Hagan also butted into the
argument and was a wind to be care-
ful. The crowd thought Calhoun
should not have been ejected.

It happened thus: Mr. Cal-
houn was at bat when a swift shot
from O'Dell struck him on the hand.
The noise sounded like a ball connect-
ing with a bat and although Dave
wring his hands in silent agony, Mr.
Smink signalled him back to the bat-
ter's box.

"Prison me, kind sir, but that ball
hit my fingers," remonstrated the vic-
tim.

"Bat up," growled the ump.
"But, your honor, possessing great-
er authority and unimpeachable judg-
ment, do you not think I am entitled
to a little first ward?" pursued Mr. Cal-
houn.

"That will cost you five," said the
author of the diamond.

"Would you object to making it
fifty-five," smiled David, "that five is
my hoodoo."

"G'wan and quit yer kidding, youse
to the bench," said his ump, and Chip
Francis picked up the white man's
burden and sent up his usual pop fly.

The Champions had scored in their
half of the second inning. With one
man out, Doctor Carles, who pulls
teeth when he doesn't play ball for a
living, leaped against a convenient
curve and rolled a single to Morgan.

Russell thought it would be polite to
let Doc take an extra sack, so he
obligingly fumbled. Dutch Myers,
fleet of foot and swift of wing, chased
in pursuit and threw to third. The
ball bounced over Hagan's head and
Carles scored. The Cokers showed
bad judgment in not backing Hagan
up.

But the one tally was a mere bug-
gatte. After the episode of Calhoun
vs. Smink in the second inning, and
following the ignominious retirement
of C. Francis, Billy Dunn singled. Fray-
ley hit to Hilley, who fumbled, and
then tried to bluff Smink into calling
it foul. His bluff was called and both
men were safe. Elmer Cannon was a
patient waiter and got to base without
exertion, four wide ones being his.

Morgan struck out but Barney Gilligan
snatched the first curve, the ball going
past Phillips for three sacks. Hagan
fouled to Phillips and it was all off.

Like Francis was the next Coker to
shine. With two men out, he booted
an easy grounder and let Phillips
reach first in safety. This proved Mr.
Cannon to some extent and three

singles, a base on balls and another
bingle resulted in three runs for Un-
iontown. The Cokers got a run in
their half on Cannon's single. Mor-
gan's walk and a biff by Gilligan.

In the next inning Cannon was sent
to the stable and Tom Silcox worked.
His first two innings were blanks.
Then came the deluge. Dutch Myers
opened the seventh inning for Un-
iontown by miffing Carles' fly. Gribben
passed the ball for three sacks. O'Dell
walked, Miller singled and was forced
by Hilley. Rudolph singled and Phil-
lips sent a sacrifice fly soaring sky-
ward to Chip Francis. Result—four
runs.

That capped the climax. After two
were out in the last of this inning,
Myers singled and Chip Francis walked
but Billy Dunn hit a short fly which
Phillips hogged after a long run. The
eighth started out fine. Fralley sing-
led. Then Silcox hit a clean bingle to
center and Fralley was forced at sec-
ond. Sweeney should have sent an
invalid chair to him before Silcox
swatted the ball, but didn't think Mor-
gan hit to Miller and Silcox was forced.
Gilligan walked and was forced on
Hagan's hit to McCloskey.

In the ninth Hilley robbed like Fran-
cis by getting his long foul. Myers
got a scratch single when Miller play-
ed horse with his boulder. Chip
Francis walked. Dunn hit to Carles,
who lets his head and makes a
chance to retire Chip at second. Dunn
was out. With two on, two out and
runs badly needed, Fralley fanned.

O'Dell did it.

Brilliant bareball, we don't think
Wake up.

Uniontown sure has our goat. Hand-
ed that game to 'em.

With perfect holding the Cokers
would have won, hands down.

If Chip Francis would run out his
hits he would get the glad hand more
often.

He's clunker was costly. His mis-
cues usually mean the beginning of
trouble.

Morgan has been off color on ground
balls lately. Unusual for him to boot
them.

Dave Calhoun was miffed in that
game yesterday. Dave protested a
trifle too strong. Better to strike out
than to be fired out.

Well, maybe we can turn the tables
on the cheery champs at Uniontown
today. Here's hoping.

Has Ben Fralley lost his speed? He
juggled dreadfully on the bases yester-
day.

Myers got a clean hit, a scratch,
and failed to hit with men on. As a
pinch hitter, Barney Gilligan for us.
And there are others, too, usually.

Seems to us that the Coker offense
was off yesterday. O'Dell is weak on
bunts, yet not a ball went his way.
He might have blown up.

the batter in doing so and the runner
was safe. Elmer Cannon wound up
too long and failed to step out of his
box when he saw Carles coming in.

The Cokers need another pitcher
and need one bad. It is too much for
three men to tackle, especially
against Uniontown.

Elmer Cannon pulled off a tactical
error in not backing up third base in
the second inning. Had he been there
to get the ball which bounded over
Hagan's head it would have saved the
Cokers a run and Myers an error.

That left on base array was formid-
able; two in the first, fourth, sixth,
seventh, eighth and ninth innings and
one in the second. The sixth was the
only session the Cokers failed to get
at least one man to first base. They
got one in the third but Myers hit into
a double play and cleared the sacks.

In the eighth inning things actually
broke right for the Cokers. Un-
iontown made three clean singles off Sil-
cox which filled the sacks but no
scores resulted. Hilley ended this
session by being called out on strikes.

Thirteen men left on the sacks.
Looks like the early season, games,
doesn't it? Never mind, hard luck
can't last all the time.

ALL FRANCE REJOICES

M. Bleriot's feat arouses great
enthusiasm.

Paris, July 27.—The whole of France
is wild with enthusiasm over Louis
Bleriot's feat in crossing the English
channel. All the newspapers are
filled with dithyrambs which reflect
the national pride at the splendid ex-
traordinary achievement of French
progress, while the pioneers of avia-
tion like Ernest Archdeacon, Georges
Boloin, Rene Quinon, Count Henri de
La Vaulx and Henri Farman foresee
the time in the near future when
heavier-than-air machines carrying
passengers will negotiate the Mediter-
ranean from France to Algeria, and
the possibilities of the aeroplane as
an engine of war are discussed now.

While there is much sympathy for
poor Hubert Latham, who overslept
himself, the country rejoices at the
fact that the intrepid Bleriot was the
first to cross from France to England.

FOUR DREADNOUGHTS ADDED

Big Navy Advocates Win Their Cam-
paign in England.

London, July 27.—The big navy
campaign has won the day and four
additional super Dreadnoughts are to
be added to the current year's ship-
building program.

CASHIER TAKES ALL READY FUNDS.

Leaves a Note Saying That
He Is Gone For-
ever.

BANK CLOSES DOORS AT ONCE.

Noah R. Marker, For Nineteen Years
Trusted Employee, Sets Time Lock
on Safe So That It Cannot Be
Opened Until He Is Far Away.

Tipton, Ind., July 27.—The First
National bank of Tipton is closed and
its assistant cashier, Noah R. Marker,
is gone, taking with him between \$50,-
000 and \$60,000, all the cash in the
bank's vaults at the close of business
Saturday.

Marker, after sweeping together the
money, set the time lock on the safe
so that it could not be opened for
several days. Nothing further has
been heard of him.

Marker left a note on the desk of
his brother, William Marker, cashier
of the bank, saying that he had gone
forever and that he had taken "enough
money to pay his expenses." The fact
that he had emptied the cash box was
not known until the time lock gave
admittance to the vault.

Noted Posters on Bank Building.
Posted in front of the bank build-
ing a placard reading "N. H. Marker,
assistant cashier of this bank, has ab-
sconded with all its cash. The treas-
ury department at Washington has
been notified and the bank will re-
main closed awaiting the department's
instructions."

The bank has been involved in lit-
igation for the possession of \$40,000
of Guyahoga bonds. The bank's presi-
dent, E. W. Shirk, was advised
by his attorneys in Lima, O., that
they had obtained by repurchase and
these securities which had been held
by the Farmers and Citizens Live
Stock Insurance company of Lima, O.,
and had given bond for them for
double their value.

These bonds had been turned over
to the insurance company for exami-
nation by Noah Marker, who did not
demand payment. The owners of the
bonds demand return of the bonds or
their value, and Noah Marker bor-
rowed \$40,000 from an Indianapolis
bank and settled for the bonds. Mr.
Shirk said that he had not been able
to find a record of this loan on the
Tipton bank's books, although Marker
told him of the loan last week.

Neither, he said, had he found a
check for \$5,000 representing a partial
payment by the insurance company
on the bonds made last April when
the bonds were sent to the local bank
to be turned over to the prospective
purchaser. Mr. Shirk added that he
was informed that the insurance de-
partment of the state of Ohio had
taken charge of the bonds as a part
of the securities deposited by the in-
surance company for the privilege of
doing business in Ohio.

"I do not know," said Mr. Shirk,
"the condition of the bank's funds,
but I do know that we shall pay every
cent of indebtedness."

William Marker said he felt sure
that his brother would return in a few
days. "He has been worrying over
letting these bonds out of his hands
until he is mentally deranged," said
Mr. Marker. "He hardly ate or slept
for ten days before he left."

Noah Marker was connected with
the bank nineteen years. He was un-
successful Republican candidate for
mayor of the city four years ago.

Resources of the First National
bank amount to \$1,100,000. Its capital
is \$100,000. Deposits amount to
\$845,771.

EXTENDS OPEN ARMS

Colored Troopers Invited to New
York. If Vermont Objects to Them.

New York, July 27.—Back from two
years' service in the Philippines and
led by Major General Leonard Wood,
the colored troopers of the "Fighting
Tenth" drew busy Broadway from its
customary routine for a time while
they marched up that thoroughfare
from the transport Klipatrick to the
Sixty-ninth regiment armory.

President McGowan of the board of
aldermen was one of the speakers at
the armory. He said:

"You have done more to kill race
prejudices than all others. If the
people of Vermont don't treat you
right, come back here. The state of
New York and the United States de-
mand for you the respect of the com-
munity and state in which you are
stationed."

Michigan Pronounced All Right.
Washington, July 27.—Having in
her official trials fully met the rigid
requirements of United States naval
constructors the new first class battle
ship Michigan will probably be turned
over to the government by her build-
ers early in August.

Autist Killed in Collision.
Detroit, Mich., July 27.—John
Hause, aged forty-five a resident of
Clayton, Mich. was instantly killed
two miles west of Dearborn when a
freight car struck the automobile in
which Hause was riding.

Fight Over Boundary Line.
Copenhagen, July 27.—A frontier
difficulty has arisen between Norway
and Sweden. Sweden demands the
alteration of the boundary line be-
tween Jemtland and Trondhjem, to
which Norway refuses to agree.

Thrown Under Train.
Sailor With Legs Crushed Off Found
Near Track.

Detroit, Mich., July 27.—John Stein,
a sailor, died in a hospital from
wounds received when he was thrown
under a Michigan Central train by two
men, according to a statement he
made just before his death.

Stein was found beside the tracks
with both legs cut off. At the hospital
he said he was coming to Detroit from
Toledo and while talking with two
men on the platform was suddenly at-
tacked by them, robbed of \$10 and
thrown under the wheels. Stein said
that he knew the men but refused to
tell who they are.

If You Want a Low Shoe

You'll Be Interested
in this Sale.

EVERY OXFORD in the store is now being sold
at a sale price. This fact in itself gives the sale
a great impetus for our stocks are larger at this
time of year than many shoe stocks at the be-
ginning of the season! We keep our stock of low-cut
intact until the last week of July, every size in every
line, then, when that week comes we just cut prices.
One decisive telling cut and out goes every low shoe
as if by magic. You remember our sale last July, one
week did the trick and it has started in with a tre-
mendous rush this year. Every Oxford offered is of
this year's make; every style is authentic and there
isn't an imperfection about any of them.

We only have one sale of Oxfords a year, but when
we do have it we make it count. It stands to reason
we can afford to cut deeper than the fellow who is
always advertising shoes at less than cost. We can't
afford to sell them at a loss all the year. Our heart is
in the right place, but we have to show a profit. This
profit has been made and this is the one time in all
the year that Wright-Metzler Oxfords can be secured
at a cut price.

Men's, women's and children's. Every single low-
cut is included in the sale and there are many factors
that go to make this sale mighty important other than
the low price features. When they are gone they can-
not be duplicated. Remember that it's your own
fault if you wait and meet with disappointment. Your
size is here now, perhaps, it won't be here in the
style you like by the end of the week. It's as
easy to come today as tomorrow. Don't put it off.
Your neighbors are not delaying, that's sure. All
this week the sale will be continued.

RAN INTO SNOWSTORM

Balloons Forced to Descend After
Battling With Sleet.

St. Louis, July 27.—A midsummer
snowstorm two miles above earth
caused John Berry, Paul J. McSul-
lough and John S. Thurman, who
ascended in the balloon University
City to land near Savannah, Ill.

"At one time when we were trying
to get out of the snowstorm," said
Captain Berry, "we rose to 13,000 feet.
At times the basket swung around
like a top. Sleet cut our faces and
we had to keep throwing snow off the
basket to prevent its weight from re-
tarding our flight."
